

Transparent Ballistic Glass

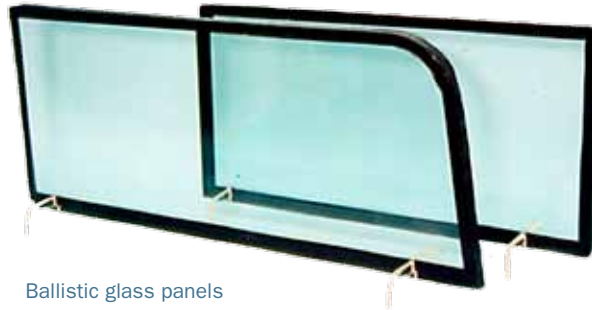

Transparent Ballistic Glass

Delivering the Protection You Deserve Standard Features

BAE Systems manufactures ballistic glass for a variety of tactical wheeled vehicles, commercial vehicles, and special-purpose vehicles, including the HMMWV, LTAS, LSAC, MRAP, HIMARS, and other add-on armor programs. Due to our focus on Research & Development, we provide on-time, cost-effective solutions to respond to the immediate demands of an ever changing threat environment.

- Multi-layered glass, glass ceramics, and polymers provide durability while absorbing and dissipating the energy of the projectile
- Meets all commercially available threats as well as STANAG, TACOM, and ARL threat requirements
- Has exceptional light transmissivity for both daylight and night time operations requiring NVG capability
- Utilizes the latest technologies available in the industry, such as performance strike layer coatings and advanced glass ceramics such as ALON and Heated Windscreen technology
- Fully compliant and capable to meet draft ATPD2352 specifications

Ballistic glass panels

Production process

HMMWV window hit by IED – exterior and interior

ALON test panels
