BAE SYSTEMS

Meet the **Bradley M2A4E1**

This world-class Infantry Fighting Vehicle is getting an upgrade.

We are working with the U.S. Army to upgrade the Bradley A4. The Bradley M2A4E1 will be the most advanced and survivable configuration yet.

Applying lessons learned from current and previous conflicts, the M2A4E1 upgrade greatly enhances Soldier's capabilities in the battlefield. Using a battle-tested Infantry Fighting Vehicle like the Bradley also means the upgrades are more cost-effective and can be integrated much faster than standard program development processes.

What's the bottom line? The Bradley M2A4E1 is a game-changer.

Equipped with top notch capabilities

Bolder and better. Superior survivability. Cutting-edge combat.

Improved
cyber security

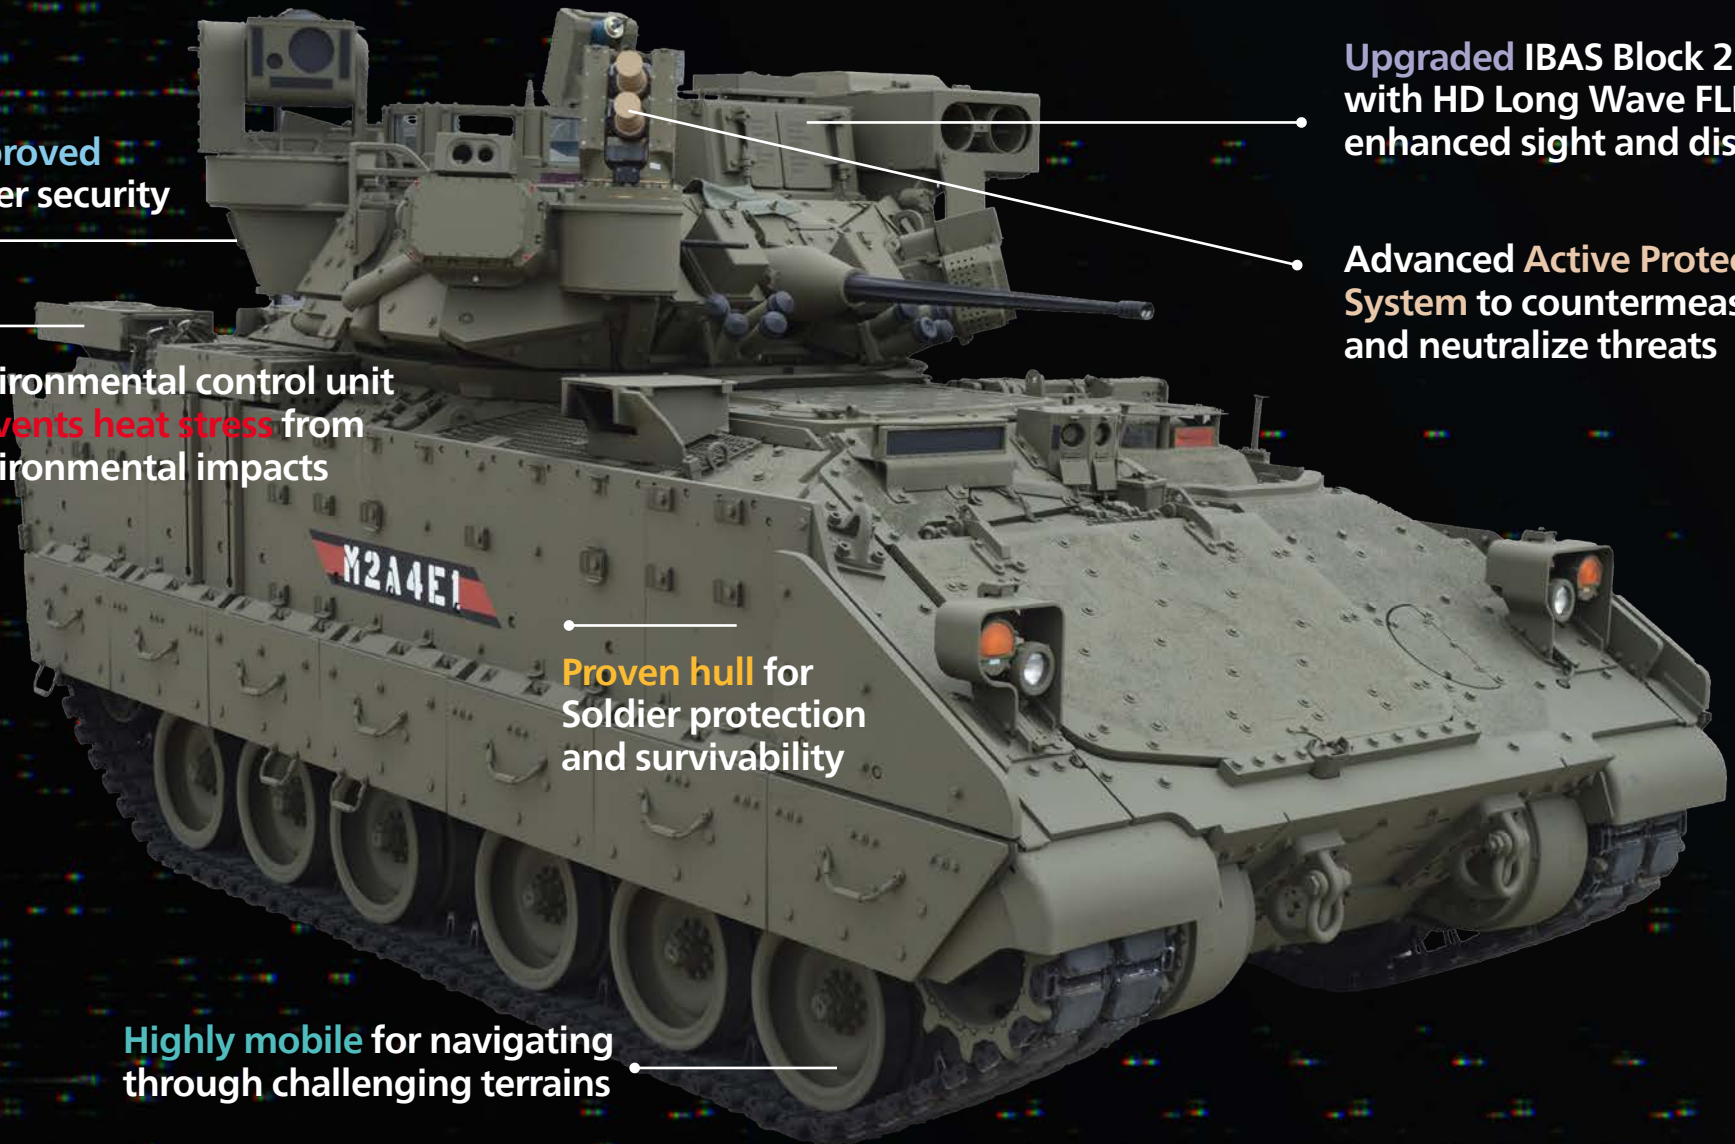

Environmental control unit
prevents heat stress from
environmental impacts

Proven hull for
Soldier protection
and survivability

Highly mobile for navigating
through challenging terrains

Upgraded IBAS Block 2.8
with HD Long Wave FLIR for
enhanced sight and displays

Advanced Active Protection
System to countermeasure
and neutralize threats

You're still the one, Bradley

Total domination since its inception.

We have decades of history book-worthy experience manufacturing and fully integrating systems for the Bradley Family of Vehicles. The Bradley has always been at the top of its class – and rather than settling at that, it's only getting better.

We will never waver from our commitment to the U.S. Army to be their partner in developing and manufacturing combat capabilities that outmatch and outpace the adversary. When Soldiers are sent to the thick of the fight, the Bradley provides the mobility, firepower and protection needed to command the battlefield. Make no mistake, the Bradley will never stop dominating.
