Instructions for Certificate of Export Control Classification (“CECC”)

1 General information

BAE Systems Hägglunds AB (“Hägglunds”) requires that the CECC form shall be completed by the Supplier to inform of any export restrictions related to the products to be delivered to Hägglunds.

This CECC form consists of a general information section and following sections where the export control classification information shall be defined depending on the applicable export control regulation.

Please note the de minimis calculation required under section 5.
If any concerns concerning the calculation and how to perform the calculation, please see U.S BIS homepage for the EAR, <https://www.bis.gov/ear>, and specifically EAR §734 and Supplement No. 2 to Part 734—“Guidelines for De Minimis Rules”

In section 7 the product commodity code shall be defined. If the code is not known, please fill in “Unknown”.

The commodity code for the customs should not be mixed with the export control code.

In Annex A, section I and II, embedded Defence items and embedded Dual Use items subject to export control shall be defined.

In Annex A section I the Military List codes for the embedded items shall be defined and in Annex A section II the Dual Use List codes shall be defined.

Embedded items are items not specifically specified as spare parts.

Embedded items not subject to export control, shall not be listed.

Spare parts requires individually a CECC, but multiple spare parts can be recorded in specific spread sheet.

See information in Annex A section III.

In section 8 the Supplier shall certify the information filled in.

Electronic signature is accepted.

Please return the completed CECC to Hägglunds.

2 BAE Hägglunds Certified Receiver

BAE Systems Hägglunds AB is since November 12th, 2019, certified to receive defence related products within the EU under simplified terms and conditions, according to Directive 2009/43/EC Article 9 of the European Parliament and of the Council of 6 May 2009, see EU Certified Enterprises Register (CERTIDER).

This makes it possible for suppliers in an exporting EU Member State to use the national general licenses to certified receivers, when such national general licenses are available.

Please use general licenses whenever possible to reduce the mutual administration.
