

RECODE

Enabling agile defence

An eight-year collaborative programme with BAE Systems, the Royal Navy and MOD Fleetwide Combat Management Systems

Ensuring the warfighter is combat ready

Keeping the Royal Navy at sea

A trusted and expert team that's always ready, wherever a ship is in the world.

Sustaining high availability and capability.

Delivering a modern combat system

The brain of a distributed and connected hybrid fleet.

Open and modular for continuous and rapid change.

The MOD hosting environment for mission critical systems.

A trusted and collaborative partnership

A relational contract, turning strategic intent into reality.

Sharing opportunities and challenges openly and honestly.

Agile defence: Equipment capable of agile change | Processes that support agile change | The right mindset and willingness to deliver
