

Field Service Representatives

World class professionals and experts
in combat vehicle maintenance.

Our FSRs provide a readiness advantage through:

- 2 million hours of field support completed in the last five years
- 3 million hours of field modification since 2007
- Direct access to myriad of resources and BAE System's elite engineers
- Over 60 years of providing field support to the U.S. military and its allies

On average, our FSRs deliver:

- 20-40% increase in operational readiness
- Tens of millions in O&M cost savings

Field Service Representatives provide exceptional O&M cost savings while driving increased operational readiness.

Field Service Organization
