

Survivor Modular Crew Seat 3000

baesystems.com

The Survivor Modular Crew Seat (SMC) 3000 is a belts-to-seat design integrated with advanced safety technology to protect against IEDs and other threats on the battlefield.

Superior Comfort and Design

The SMC 3000 improves comfort and bolsters for rough terrain and long duration missions and is integrated with a 5-point restraint using a single-point rotary release buckle for rapid exit. Available in multiple base

options, the seat is offered with fore aft adjustment, blastworthy vertical adjustment or with a fixed height base. The SMC 3000 is qualified for the Family of Medium Tactical Vehicles (FMTV), but can be adapted to numerous vehicle configurations.

During initial blast and slam-down events, this self-resetting, energy-absorbing seat offers maximum occupant protection. The quick-release headrest and optional fold-over seat back of the SMC 3000 aids in egress during emergency evacuation.

Features

- Provides protection against both blast and slam down events
- Available with 4- or 5-point restraints
- Single-point release buckle for improved egress
- Meets Federal Motor Vehicle Safety Standard 207/210
- Meets flammability requirements of FMVSS 302

Seat colors and patterns available:

Black

Desert Tan

Camo Green

Olive Drab

Digital Camo
