Jacksonville Ship Repair

Yachts

Maintenance | Refit | Overhaul | Conversion

# Welcome to Jacksonville Ship Repair Full Yacht Services

BAE Systems Jacksonville Ship Repair (JSR) is situated two miles from the Atlantic Ocean. The water depth is 41-feet (12.5-meters), providing deep-water access from the Caribbean and Atlantic to the facility with unlimited air draft. JSR is a short sail (300 nautical miles) from the yachts capital of the world – Fort Lauderdale, Florida (FLL).

We refit, maintain, modernize, and overhaul yachts with the highest degree of expertise, professionalism, confidentiality, and focus on safety. We have the location, capability, and people to service the unique mechanical and engineering needs for yachts.

# Accommodating the World's Largest Yachts

JSR is designed to service and haul yachts up to 550-feet (168-meters).

- Secure 101-acre site
- Shiplift lifting capacity: 25,000 long tons (25,401 metric tons)
- Land-Level Facility: 4 acres
- Two marine railways with side transfer capabilities: 4,000 long tons (4,064 metric tons) and 1,000 long tons (1,016 metric tons)
- Pier and bulkhead repair berths totaling more than 3,000 feet (942 meters)
- Covered workshops totaling more than 135,000 square feet (12,542 square meters)
- ISO 9001:2015 certified
- High standards for cleanliness, professionalism, security, and safety

## State-of-the-Art Facilities

We have a range of modern facilities for repair and fabrication, including the largest shiplift on the East Coast. Engineering and mechanical services, hull maintenance and preservation, and underwater preparation and painting are our specialties.

## Exceptional Service

For more than 60 years, JSR has been and continues to be the repair facility of choice for the world's largest yachts. We have the technical and managerial expertise to get the job done on time and on budget. We have a talented and highly skilled workforce of master craft and trade personnel, experienced deckplate supervisors, program managers, technicians, and an administrative staff – we lead our ship repair projects with excellence and a focus on safety and security every day. Finally, we have relationships with renowned providers of specialty livery and outfitting service.

## Customer Satisfaction is Our Highest Priority

Our services, our performance, and our people define BAE Systems as a primary partner for our yacht customers. Anchored in safety, secured in quality – at BAE Systems Jacksonville Ship Repair, we are the simplified solution.
