

BlackThorn™ 120

Any mission. Any platform.

BAE SYSTEMS

Product Overview

BlackThorn™ 120 is a mission-configurable warhead built around the mission rather than the platform. From a common architecture, the customer can match the right effect to each target, whether that's an autonomous systems mission, a loitering munition mission or a counter-UAS mission. Common interfaces allow for rapid integration, and the architecture can evolve as threats and platforms change.

Key Features

- Multi-role effects
- Blast, fragmentation and anti-armour capability
- Platform-agnostic architecture
- Electronic safety and arming
- Modular design
- Rapid integration
- Low integration burden

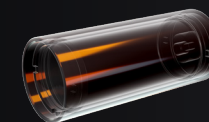

Suitable Platforms

- One way effectors
- Unmanned Aerial Vehicles (UAV)
- Unmanned Ground Vehicles (UGV)
- Uncrewed Vehicles (UXV)
- Strike drones
- Maritime Autonomous Systems (MAS)

Configuration Options

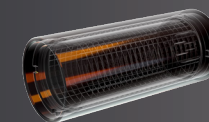

Blast Warheads

Effective against structures, equipment, and critical systems, providing effective area coverage and reliable mission-kill capability against a broad spectrum of targets.

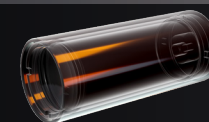

Enhanced Fragmenting

Combines blast and optimized fragmentation effects to deliver widespread target coverage and effective defeat of exposed equipment, critical systems, and lightly protected assets. Designed to provide reliable area effects and enhanced target neutralization capability.

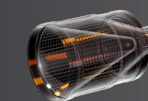

EFP

Enables efficient defeat of protected targets through concentrated energy delivery and localized target damage. Designed to provide reliable, stand-off engagement capability against demanding threats.

Multi-effect Shaped Charge Warhead

Combines the effects of enhanced fragmenting and shaped charge warheads, offering precise target effect and penetration alongside widespread area effects to provide overall terminal effect robustness.

Technical Specifications

Configuration	Diameter (mm)	Length (mm)	Mass (kg)
Blast	127	305	11.8
Enhanced Fragmenting	127	305	11.8
EFP	127	305	12.42
Multi-effect Shaped Charge Warhead	122	225	3.25

BlackThorn is a modular and configurable warhead, also available in 40mm and 70mm configurations
