

Survivor Modular Troop Seat 3000

baesystems.com

The SMT 3000 mine blast seat is a production-fielded solution that provides a durable configuration qualified for the Bradley and M109 family of vehicles. The seat is equipped with a two-point restraint and with a resettable, energy-absorbing technology to provide occupant protection from mine blast threats.

Built for both safety and comfort, the seat is wall-mounted, highly configurable and is rigorously tested for use in diverse military environments.

The seat maximizes space claim by folding the seat back forward and rotating the seat upward against the vehicle wall to aid in ingress, egress

and accessibility underneath the seat. The seat also features removable seat cushions and waterproof fabric.

Features

- Fold-forward seat back
- Hinged mounting for vertical stowage
- Tested for diverse military environments
- Meets Federal Motor Vehicle Safety Standard-207/210
- Meets flammability requirements of FMVS302
- Waterproof, removable cushions
- Chemical Agent Resistant Coating (CARC) paint

Seat colors and patterns available:

Black

Desert Tan
