

Survivor Post Mount Seat 1000

baesystems.com

The SPM 1000 mine blast seat is a production-fielded solution that provides a robust configuration qualified for the Bradley combat vehicle. The seat is equipped with re-settable, energy-absorbing technology and a three-point restraint to guard against blast threats and crashes.

Built for both safety and comfort, the seat is post-mounted, highly configurable and is rigorously tested for use in diverse military environments.

The seat maximizes space claim by folding and stowing against the vehicle

wall for accessibility underneath the seat. The seat back folds forward and rearward to aid in ingress and egress. The seat also features fore/aft adjustment, removable seat cushions, and waterproof fabric.

Maximize space by folding and stowing against vehicle wall
