

RECODE

Keeping the Royal Navy at sea

Because mission success depends on readiness

Our teams sustain high availability and capability for the Royal Navy's fleet

The crew behind the crew

A dedicated RECODE Combat Management Systems' support team. Experienced engineers with a deep knowledge of naval operations.

Operational readiness

Ensuring readiness of the Royal Navy's global responsibilities 24/7. Maintaining their presence in contested regions.

Mission continuity

Supporting QEC, Type 45, Type 23, LPD, and RFA ships to maintain safety, security, and availability.

Fast problem-solving

From combat damage to system updates, the team delivers fast fixes and technical refreshes.

Global reach

Rapid response anywhere in the world – travelling thousands of miles to keep ships operational.
