

BAE Systems, Inc. Source to Pay (S2P)

Information for Suppliers - August 2025

As we continue our journey to implement our new Source to Pay platform, Ivalua, we want to recap the key benefits and drivers behind this change and provide an update on our progress.

Current Status

We are making significant progress in our implementation efforts, with several key milestones achieved over the past month. Our team has been working diligently to ensure a smooth transition, and we are on track to meet our planned go-live date of October 9 for system implementation. Currently, we are hard at work conducting system testing, ensuring a seamless transition for our rollover into Ivalua.

Go-Live Plan

While we plan to grant you access to your account on October 9, allowing you to familiarize yourself with the system, this initial access is not a requirement to complete your company registration. Instead, it's an opportunity for you to:

- **Validate your profile setup**
- **Add additional users if needed**
- **Review company information**
- **Explore the system's features**

You will receive a formal registration request via email at a later time, which will prompt you to complete the registration process.

How You Can Prepare

To ensure a seamless transition, we encourage you to:

- Review our [BAE Systems Source 2 Pay](#) website and check on latest program updates.
- Join our last Supplier Information Session for an overview of the new platform and a demo of basic navigation and functionality. Please see below for date, time, and meeting link. Simply click on the link and it will load the event.
