

GLOBAL

ACCESS PROGRAM

BAE SYSTEMS

INSPIRED WORK

PROMOTING AUSTRALIA'S DEFENCE INDUSTRY GLOBALLY.

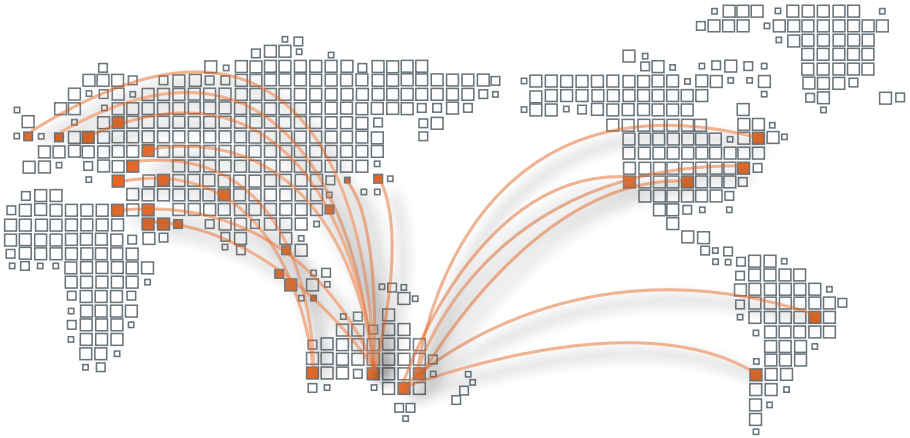

BAE Systems is one of the largest defence companies in the world. With a strong commitment to five home markets, we are a truly global organisation.

We are committed to ensuring our local suppliers have access to worldwide opportunities, so in 2012 we created the BAE Systems Australia Global Access Program. The program provides our local suppliers an entry point into our company's international supply chain.

We search globally across our five home markets to find opportunities for our best suppliers to support our diverse products and services that cover the air, land, sea and electronic domains. Through the Global Access Program you will have access to expertise in engineering, procurement and quality from specialists within our company.

We will work with your team before, during and after the RFT has been released to reduce your risk and increase your competitiveness. If you have a niche capability or proven product that you believe is globally competitive, our team will work with you to identify and secure global opportunities.

To learn more about our supplier program visit our website or contact our team at au.globalaccessprogram@baesystems.com
