

# Talks program

Live at the BAE Systems stand **Hall one 1L11**

Mark Yates,  
Project Manager -  
Aerostructures,  
BAE Systems Australia

## Joint Strike Fighter (JSF) Advanced Manufacturing technologies

Tuesday 28 Feb 10:15 – 10:30  
Thursday 2 Mar 11:00 – 11:15

**About your presenter:** Mark is currently the Project Manager of the F-35 Vertical Tail Project at BAE Systems Australia. Mark's focus is on transitioning the machining facility from low rate to full rate production, which includes constant adjustment of strategy, risk management and business continuity management.

Jamie Morse, Campaign  
Communications  
Manager, BAE Systems  
Australia

## Flight Path: All the latest F-35 information from those in the know

Tuesday 28 Feb 11:00 – 11:15  
Wednesday 1 Mar 11:00 – 11:15  
Thursday 2 Mar 16:00 – 16:15  
Friday 3 Mar 10:00 – 10:15

**About your presenter:** Jamie is a communications professional who joined BAE Systems following a successful career with Australian and global communications consultancies. His core areas of expertise include corporate strategy, leadership communications, risk and reputation management, stakeholder communications and branded content.

In a career that has spanned five international markets he has worked with senior executives of global companies including, but not limited to Shell, Chevron, Ford Motors, BHP Billiton, HSBC, Nikon and LG Electronics.

Phil Barnaba, International Business Development Manager, BAE Systems PLC (UK)

### Striker II: Performance without compromise

Tuesday 28 Feb 13:00 – 13:15  
Wednesday 1 Mar 10:00 – 10:15  
Friday 3 Mar 11:00 – 11:15

**About your presenter:** With a total of 37 years of experience at BAE Systems, Phil Barnaba is an International Business Development Manager within the Survivability, Targeting and Sensing Solutions (STS) business unit - representing the product range across Asia and Australia.

Neil Bartlett, Operations & Site Manager Pearce, BAE Systems Australia

### Hawk to F-35 Sustainment capabilities

Tuesday 28 Feb 14:00 – 14:15  
Thursday 2 Mar 14:00 – 14:15  
Friday 3 Mar 13:00 – 13:15

**About your presenter:** After 28 years as a Royal Air Force Engineer Officer, Neil now leads a team on Operational Maintenance of the Hawk Lead-In Fighter (LIF) for the RAAF fleet at RAAF Base Pearce.

Dr Michael Crump, G&N Specialist, BAE Systems Australia

### Autonomy: Complementing and supporting manned systems

Tuesday 28 Feb 15:00 – 15:15  
Wednesday 1 Mar 15:00 – 15:15

**About your presenter:** Dr Michael Crump is the Guidance, Navigation and Control technology lead for Weapon Systems for BAE Systems Australia. This engineering research and development business unit is an Australian business unit responsible for several world leading products and technologies in the field of autonomous systems.

David Dunmall, Senior EW Systems Specialist & Campaign Manager, BAE Systems Australia

### Mantlet™: the worlds smallest Electronic Supports Measure (ESM) system?

Wednesday 1 Mar 15:30 – 15:45  
Thursday 2 Mar 15:00 – 15:15

**About your presenter:** David has over 30 years' experience as an engineer and manager in electronic warfare and related systems. He has experience gained from development of Electronic Support, Electronic Attack and complex EW systems in both the UK and Australia.

Rajiv Shah, Director – Cyber, Intelligence and Security, BAE Systems Applied Intelligence Australia

### Securing cyber robustness in the supply chain

Wednesday 1 Mar 14:00 – 14:15  
Thursday 2 Mar 13:00 – 13:15

**About your presenter:** Rajiv Shah has an almost 20 year career with BAE Systems Applied Intelligence, helping clients design, build and operate solutions to protect nations, citizens and organisations from physical and cyber threats. Rajiv's cybersecurity expertise includes helping government and critical national infrastructure clients understand their risks, put in place intelligent protection solutions, and harness the power of Big Data to continuously monitor their networks. Before joining BAE Systems, Rajiv completed a PhD in computational physics and retains a keen interest in mathematics and science.

James Waldie, Project Engineering Manager, BAE Systems Australia

### Predicting corrosion on the F-35 Joint Strike Fighter

Wednesday 1 Mar 13:00 – 13:15  
Thursday 2 Mar 10:00 – 10:15

**About your presenter:** James has worked at BAE Systems since 2002, and corrosion management technologies for 7 years. James obtained his PhD in Aerospace Engineering from RMIT in 2005, and spent 2.5 years as a Postdoctoral Scholar at the Massachusetts Institute of Technology (MIT) in the US. In 2016, James was judged one of Australia's most innovative engineers by Engineers Australia. Currently he is the Engineering Manager of Corrosion Group in the Richmond (Melbourne) office.

Cathy Riach, Recruitment and Resourcing Manager, BAE Systems Australia

### BAE Systems recruitment program

Friday 3 Mar 15:00 – 15:15

**About your presenter:** Cathy joined BAE Systems Australia in 2011 in a generalist human resources role. Now the company's national Recruitment & Resourcing Manager, Cathy leads a team who provide the Australian business with end-to-end recruitment, redeployment and workforce planning support.
