

# Relationship, Process, Tools

Suppliers role in the BAE Systems Air ERP Transformation

## Relationship

- Collaborate with Air for continuous development
- Champions changes to wider organisation
- Demonstrates ongoing & pro-active involvement with the Air changes

## Process

- Understands the difference between new and old processes
- Incorporates the new processes as normal practice
- Seeks to help ongoing improvement of processes

## Tools

- Positive support and endorsement of new tools
- Embrace benefits of new, modern systems
- Supporting quality information and good practice use
