

# Manufacturing

Assembly, integration and test capability

We provide a trusted and innovative total manufacturing capability for highly complex electronic integrated systems, sub-systems, modules and printed electronic circuit assemblies where quality is paramount. Our ethos is to add value through our people, scale, capability and engineering know-how, allowing us to provide a vital advantage to our customers where it counts.

### Wiring harnesses and cable work

Capability to manufacture an extensive range of cable work, from simple point-to-point individual cables to multiway connector harnesses.

Experienced, specialised fibre optic cable manufacture in clean room conditions covering single, dual and quad connector assemblies. Military specification very low loss assemblies through to commercial standards, fully inspected and tested. Specialist COSHH-compliant back potting facility.

### Mechanical assemblies, chassis and cabinet build including wiring

Manufacturer of all forms of chassis and cabinets inclusive of all wiring requirements using our highly skilled operators / fitters. This can range from simple bench-mounted assemblies to large consoles, racks and cabinets which require a team of fitters using overhead lifting supports and air skates.

To support this assembly area we have a machine shop with an extensive range of machines capable of producing and modifying piece parts to ensure lead times are kept within lead time scales.
