

# BAE Systems Helped Boeing Drive Significant V-22 Productivity Improvements...

- ◆ Over a 5 year period, BAE Systems has been providing Obsolescence Management services, solutions and options on the V-22 Team
  - **A** - 2004 to 2005; helped Boeing recognize the “true” number of high risk items
  - **A** - Increase of “real issues” awareness rose to ~350 “at risk” items
  - **B** - Automated processes developed to not only identify issues; but drive closure
  - **C** - Resolution cycle times reduced from ~800 days to < than 50 days
  - **C** - Improvements Continue
  - **Redesigns for obsolescence virtually eliminated**

**Obsolescence Case Resolutions mean avoidance of costly redesigns**
