About Elgin, Oklahoma

The BAE Systems Elgin, Oklahoma facility is the final assembly location for the M109 Self-Propelled Howitzer family of vehicles. The Elgin facility provides a great opportunity for BAE Systems to work even closer with the U.S. Army Artillery Center of Excellence and local industry in the Elgin-Lawton area. Sharing a border with Fort Sill, the Elgin facility allows BAE Systems to access a highly skilled and experienced artillery workforce while enabling transition of the vehicles from production to verification.

Expansion in Elgin will support increased workload on current and future programs.

Employees

- Approximately 36; growing to an estimated 46 employees when expansion is completed in summer of 2019.

Facility

- The Elgin campus currently houses 1,300 sq. ft of office space, and 18,350 sq. ft of manufacturing and warehouse areas.
- To meet increased demand, the Elgin facility is adding an additional 52,350 sq. ft. of new factory space to increase the rate of final assembly. With the expansion, the Elgin site will grow roughly to 72,000 sq. ft. in total and will include a high bay area and paint facility.

Primary Activity

- BAE Systems' Elgin facility is the final assembly location for the M109 Self-Propelled Howitzer family of vehicles.
- Fort Sill supports the Elgin facility with Howitzer live firing ranges and vehicle automotive testing areas.

Core Competencies

- Subassembly and Testing
- Manufacturing
- Vehicle Integration
- Vehicle Test and Sale

Economic Impact on the Community

- Active supporter of local community programs including:
 - Elgin Chamber of Commerce
 - Fort Sill Morale, Welfare and Recreation (MWR)
 - Elgin Public Schools
 - Oklahoma Blood Institute
 - United Way
