

Update from BAE Systems - Dargavel Village, May 2019

Welcome to our May update on Dargavel Village. We're continuing to make good progress as we head towards summer and our key updates for the month are noted below.

- Morgan Sindall, our main contractor for the new M8 junction, has introduced a 30mph speed limit on the A8 between Barrangary Roundabout and the Red Smiddy Roundabout as part of the ongoing works. We advise drivers to continue checking www.roadworksscotland.org for updates.
- Dargavel Village is a residential development and we would like to remind all drivers that there is a 20mph speed limit throughout the village.
- Last month, we were delighted to learn that Dargavel Village won the 'Excellence in Planning for Homes – Large Schemes' award at the prestigious Royal Town Planning Institute (RTPI) Awards for Planning Excellence 2019. This is a UK-wide award, recognising the positive economic and environmental impact of the Dargavel Village development on Renfrewshire and its surrounding area, and is a credit to everyone who has worked with us in making the development the success it is today.
- Our spring newsletter is now available and residents should soon receive a copy through their doors. You can also view the newsletter online in the news and events section of our website: www.baesystems.com/bishopton.

If you have any concerns or would like to speak to a member of the Programme Team about Dargavel Village, please call our freephone hotline on 0800 130 3302.
