- b) BAE SYSTEMS program, operations, engineering, technical, or other personnel may from time to time render assistance, give technical advice, discuss, or exchange information with SELLER's personnel concerning the Work hereunder. Such actions shall not be deemed to be a change under this clause of this Contract and shall not be the basis for equitable adjustment. If SELLER believes the foregoing creates an actual or constructive change, SELLER shall notify the BAE SYSTEMS Procurement Representative and shall not accept such direction or perform said action unless authorized by BAE SYSTEMS Procurement Representative.
- c) Except as otherwise provided herein, all notices to be furnished by the SELLER shall be sent to the BAE SYSTEMS Procurement Representative.
- d) BAE SYSTEMS may, at any time, exclusively by a written order signed by its Procurement Representative, and without notice to sureties, if any, make changes within the general scope of this contract in any one or more of the following:

The SELLER shall promptly review all changes to the part and/or service as specified in the Change Order and any Attachments, if any, and notify BAE SYSTEMS of any effect that the change may have on the performance of the contract.

- f) If any such change causes an increase or decrease in the cost of or the time required for performance of this contract, an equitable adjustment shall be made in the contract price, the delivery schedule, or both, and the contract shall be modified in writing accordingly. Any claim by SELLER for adjustment under this article must be asserted in writing to BAE SYSTEMS' Procurement Representative no later than thirty (30) calendar days (for Ship Repair, five (5) calendar days) after the date of receipt by SELLER of the written change authorization or within such extension as BAE SYSTEMS may grant in writing; BAE SYSTEMS may, in its sole discretion, consider any such claim regardless of when asserted. Where the cost of property made excess or obsolete as a result of a change is included in SELLER's claim for adjustment, BAE SYSTEMS shall have the right to direct the manner of disposition of such property. BAE SYSTEMS shall have the right to examine any of SELLER's pertinent books and records for the purpose of verifying SELLER's claim.

Accrued costs for such contributions that are paid less often than quarterly shall be excluded from indirect costs for payment purposes until SELLER actually makes the payment.

iii. Notwithstanding the audit and adjustment of invoices or vouchers under subparagraph (h) below, allowable indirect costs under this Contract shall be obtained by applying indirect cost rates established in accordance with subparagraph (e) below.

Such approval requests shall include a full explanation of SELLER's verification process for those goods. For returned goods to be considered for acceptance by BAE SYSTEMS, if SELLER uses an Authorized/Franchised Distributor the Distributor must include acceptance of returned goods for resale as part of its counterfeit/fraudulent parts risk management plan.
- g) All repair, replacement and other correction and redelivery shall be completed within the original delivery schedule or such later time as BAE SYSTEMS' Procurement Representative may reasonably direct.
- h) BAE SYSTEMS may also charge SELLER for any costs of additional inspection and/or transportation when rejection or delay makes re-inspection necessary. SELLER shall not charge, nor include in its Allowable Costs, the cost of re-inspection, return transportation, or redelivery in this Subsection.
- i) To the extent this Contract includes Cost Reimbursable Line Items or is Cost Reimbursable in totality, this Section 25 i) 1) and 2) shall apply. For any other non-cost reimbursable effort(s), this section 25 i) 1) and 2) shall not apply:

The cost of replacement or correction shall be included in allowable cost, determined as provided in the Allowable Cost and Payment clause, but no additional fee shall be paid.

2. Notwithstanding the Section above of this clause, the Buyer may at any time require the SELLER to remedy by correction or replacement, without cost to the Buyer, any failure by the SELLER to comply with the requirements of this Order, if the failure is due to (1) Fraud, lack of good faith, or willful misconduct on the part of the Seller's managerial personnel; or (2) The conduct of one or more of the SELLER's employees selected or retained by the SELLER after any of the SELLER's managerial personnel has reasonable grounds to believe that the employee is habitually careless or unqualified. See FAR 52.246-3 "Inspection of Supplier – Cost Reimbursement."

26. COUNTERFEIT PARTS: PREVENTION AND NOTIFICATION (Note: If DFARS 252.246-7007 is applicable to this

procurement, it shall take precedence for any differing terms and conditions for Electronic Parts within this specific provision with the exception of subsections: a) i., b), d), and f)

a) Definitions for purposes of this Contract:

i. "Counterfeit Part" is one that is (1) an unauthorized copy or substitute that has been identified, marked, and/or altered by a source other than the item's legally authorized source and has been misrepresented to be an authorized item of the legally authorized source and/or (2) previously used parts provided as "new." A part is a "Suspect Counterfeit Electronic Part" if visual inspection, testing, or other information provides reason to believe that the part may be a counterfeit part.

ii. "Counterfeit Electronic Part" means an unlawful or unauthorized reproduction, substitution, or alteration that has been knowingly mismarked, misidentified, or otherwise misrepresented to be an authentic, unmodified electronic part from the original manufacturer, or a source with the express written authority of the original manufacturer or current design activity, including an authorized aftermarket manufacturer. Unlawful or unauthorized substitution includes used electronic parts represented as new, or the false identification of grade, serial number, lot number, date code, or performance characteristics.

iii. As used herein, "authentic" shall mean (A) from the legitimate source claimed or implied by the marking and design of the product offered; and (B) manufactured by, or at the behest and to the standards of, the manufacturer that has lawfully applied its name and trademark for that model/version of the material.

iv. "Independent Distributors" are persons and businesses that are not part of an OCM's authorized distribution chain. These also may be referred to as non-franchised distributors, unauthorized distributors or brokers.

v. "Electronic Part" means an integrated circuit, a discrete electronic component (including, but not limited to, a transistor, capacitor, resistor, or diode), or a circuit assembly (section 818(f)(2) of Pub. L. 112-81.)

vi. "Original Component Manufacturer" (OCM) is an organization that designs and/or engineers a part and is pursuing or has obtained the intellectual property rights to that part.

vii. "Original Equipment Manufacturer" (OEM) is an organization that designs, manufactures and/or engineers an end product comprised of various parts and is pursuing or has obtained the intellectual property rights to that end product.

viii. "Suspect Counterfeit Electronic Part" means an Electronic Part for which credible evidence (including, but not limited to, visual inspection or testing) provides reasonable doubt that the Electronic Part is authentic.

b) SELLER represents and warrants that only new and authentic materials are used in products required to be delivered to BAE SYSTEMS and that the Work delivered contains no Counterfeit Parts. No other material, part, or component other than a new and authentic part shall be used unless approved in advance in writing by the BAE SYSTEMS Procurement Representative. To further mitigate the possibility of the inadvertent use of Counterfeit Parts, SELLER shall only purchase and use authentic parts/components directly from the OEMs/OCMs or through the OEM's/OCM's authorized distribution chain. SELLER must make available to BAE SYSTEMS, at BAE SYSTEMS' request, OEM/OCM documentation that authenticates traceability of the components to that applicable OEM/OCM. Purchase and use of parts/components from Independent Distributors is not authorized unless first approved in writing by BAE SYSTEMS Procurement Representative. SELLER must present complete and compelling support for its request and include in its request all actions needed to ensure that the parts/components thus procured and used are legitimate parts. BAE SYSTEMS may additionally need to get its customer's approval of SELLER's request. Awaiting the processing of such requests shall not constitute a basis for excusable delay on part of the

SELLER. BAE SYSTEMS' approval of SELLER request(s) does not relieve SELLER's responsibility to comply with all Contract requirements, including the representations and warranties in this provision.

c) SELLER shall maintain a documented system (policy, procedure, or other documented approach) that provides for prior notification to the BAE SYSTEMS Procurement Representative and his/her written approval before parts/components are procured and used from sources other than OEMs/OCMs or through the OEM's/OCM's authorized distribution chain. SELLER shall provide copies of such documentation for its system for BAE SYSTEMS' inspection upon BAE SYSTEMS' request. SELLER's system shall be consistent with applicable industry standards, AS5553 as minimum, for the detection and avoidance of Counterfeit Electronic Parts and Suspect Counterfeit Electronic Parts, including policies and procedures for training personnel, designing and maintaining systems to mitigate risks associated with parts obsolescence, making sourcing decisions, prioritizing mission critical and sensitive components, ensuring traceability of parts, developing lists of trusted and non-trusted suppliers, flowing down requirements to subcontractors, inspecting and testing parts, reporting and quarantining Suspect Counterfeit Electronic Parts and Counterfeit Electronic Parts, and taking corrective action.

d) If the SELLER is providing electronic components/devices only, or value added services that include the acquisition of components/devices in conjunction with these services, the following certification applies:

Certification of Origin of Product:

Acceptance of this Contract constitutes confirmation by the SELLER that it is the Original Equipment Manufacturer (OEM)/Original Component Manufacturer (OCM), or a franchised or authorized distributor of the OEM/OCM for the product herein procured. SELLER further warrants that OEM/OCM acquisition documentation that authenticates traceability of the components to that applicable OEM/OCM is available upon request. If the SELLER is not the OEM/OCM or a franchised or authorized distributor, the SELLER confirms by acceptance of this Contract that it has been authorized in writing by BAE SYSTEMS to act on BAE SYSTEMS behalf to procure from the OCM or a franchised or authorized distributor of the OEM/OCM. The SELLER further warrants that OEM/OCM acquisition traceability documentation is accurate and available to BAE SYSTEMS upon BAE SYSTEMS' request and is retained as a quality record in accordance with the "Maintenance of Records" provision contained herein.

e) SELLER shall flow the requirements of this provision to its subcontractors and suppliers at any tier for the performance of this Contract.

f) Notifications: Should SELLER become aware of a Counterfeit Part or Suspect Counterfeit Part that, by any means, has been delivered to BAE SYSTEMS, or acquired for this Contract whether or not delivered to BAE SYSTEMS. SELLER shall notify BAE SYSTEMS as soon as possible but not later than 7 days of discovery. SELLER will verify receipt of this notification by BAE SYSTEMS. This requirement will survive this Contract.

g) SELLER shall be liable for cost of Counterfeit Parts and Suspect Counterfeit Electronic Parts and the cost of rework or corrective action that may be required to remedy the use or inclusion of such parts.

h) SELLER shall quarantine Suspect Counterfeit Electronic Parts and Counterfeit Electronic Parts, and make them available for investigation by appropriate government authorities. Suspect Counterfeit Electronic Parts and Counterfeit Electronic Parts shall not be returned to the supply chain unless and until such time that the parts are determined to be authentic.

27. PACKING AND SHIPMENT

- c) Unless otherwise specified, delivery shall be in accordance with INCOTERMS 2020 DAP at the place of BAE SYSTEMS identified in the order.
- d) Work shall not be supplied in excess of quantities specified in this Contract. SELLER shall be liable for handling charges and return shipment costs for any excess quantities.

28. PARTS OBSOLESCENCE

“Obsolete Electronic Part” means an electronic part that is no longer in production by the original manufacturer or an aftermarket manufacturer that has been provided express written authorization from the current design activity or original manufacturer.

SUPPLIER shall take appropriate actions to mitigate Electronic Parts obsolescence in order to maximize the availability and use of authentic, originally designed, and qualified Electronic Parts throughout the product’s lifecycle.

BAE SYSTEMS may desire to place additional orders for items purchased hereunder. SELLER shall provide BAE SYSTEMS with a “Last Time Buy Notice” at least twelve (12) months prior to any action to discontinue any item purchased under this Contract.
