

Alliant 2 Governmentwide Acquisition Contract (GWAC)

baesystems.com

The General Services Administration's (GSA) Alliant 2 Governmentwide Acquisition Contract (GWAC) is a Office of Budget and Management (OMB) designated Best-in-Class GWAC offering artificial intelligence (AI), distributed ledger technology (DLT), robotic process automation (RPA), and other types of emerging technologies. The five year base year and five year option contract provides best-value IT solutions to federal agencies, while expanding opportunities for small businesses in federal contracting.

Scope

Alliant 2 provides maximum flexibility in acquiring an IT services-based solution for any conceivable IT services-based requirement driving government savings through efficiencies and improved reporting data with greater integrity while maintaining an "Anything IT Anywhere" philosophy. Alliant 2 encompasses all IT Modernization, Engineering, Development, O&M/Sustainment, and Cyber Security/Information Assurance tasks.

KEY FEATURES

Digital and IT Modernization

- Artificial Intelligence
- Digital Workflow and Process Automation
- Digital Services Centers
- Cloud-based Platform Implementation
- Customer Experience
- Digital Strategy
- Data Science and Analytics
- Agile Development/Dev Sec Ops
- Low-Code/No-Code

- Cyber Research and Future Solutions
- Identity and Access Management
- App Security
- Visualization and Data Fidelity
- Governance, Planning and Oversight
- Simulation and Training

IT Management and CIO Support

- IT Governance and Enterprise Architecture
- Learning and Innovation
- Program and Project Management
- Modernization, Strategy and Planning

GSA Alliant 2 Benefits

All U.S. federal civilian and defense agencies can use Alliant 2 directly for streamlined, flexible acquisitions and to access services and solutions offered by BAE Systems.

- A \$75B program ceiling
- Complimentary scope-compatibility reviews by GSA
- Allows for long-term planning of large-scale program requirements and decentralized ordering
- All contract types including hybrid (e.g. Fixed-Price, Cost-Reimbursement, Labor-hour and Time-and-Materials)
- Low contract access fee of .75%
- No protests on orders \$10 million and under; except on the grounds that the order increases the scope, period of performance, or maximum value of the GWAC

Our Capabilities

BAE Systems delivers a broad range of solutions and services enabling militaries and governments to successfully carry out their missions.

The company provides large-scale systems engineering, integration, and sustainment services across air, land, sea, space, and cyber domains. BAE Systems takes pride in its support of national security and those who serve.

- No protests on orders \$10 million and under; except on the grounds that the order increases the scope, period of performance, or maximum value of the GWAC

About BAE Systems, Inc

BAE Systems, Inc. and its 33,600 people are part of a global defense, aerospace and security company with 85,800 employees worldwide. We deliver products and services for air, land, sea and space, as well as advanced electronics, security, information technology solutions, and customer support and services. Our dedication shows in everything we create and deliver—from advanced electronic systems to cyber operations and intelligence analysis, from combat vehicles to naval weapons, and from ship maintenance and modernization to vehicle upgrades and services. We push the limits of possibility to provide a critical advantage to our customers where it counts.
