

## Quality Notification

Reminder: Transition of Production from Disapproved CARC Paint Facilities

To Our Valued Suppliers:

As a follow-up to our previous announcement on February 18<sup>th</sup>, 2025, regarding the reduction of our Approved Chemical Agent Resistant Coating (CARC) Painter list, we would like to remind you that the 90-day transition window is nearing its end. We kindly request that you expedite the relocation of production to another approved location to ensure a seamless continuation of our business relationship.

To avoid any potential disruptions, please ensure that all necessary arrangements are made to transfer production to an approved paint house by the deadline. The updated list of Approved CARC painters, which will be effective as of **May 23, 2025**, will be posted on the BAE Systems Purchasing Website.

If you have any questions or concerns regarding this transition, please do not hesitate to reach out to your designated BAE Systems contact. We appreciate your prompt attention to this matter and look forward to continuing our partnership.

Please reference “Approved CARC Painter List – Reduction Notice” February 18<sup>th</sup> 2025 for the list of effected Paint Houses.

---

Questions can be directed to your BAE Systems Authorized Purchasing Representative or Supplier Quality Assurance Representative.
