

Quality Notification

June 7th, 2023

To Our Valued Suppliers,

This notice is to inform you on the clarification of the requirements in Weld Specification **WS19143** in regards to **CDR008 Welding-Weapon Systems**.

In accordance with CDR008 Welding-Weapon Systems the submittal of a WPS if it is required by the applicable code and/or specification.

In the event that **WS19143** is called out on the Technical Data Package (TDP) and **AWS D17.1** is utilized for Welder Performance Qualification Records, as allowed per **WS19143**, the following is required to be submitted with the **CDR008 Welding-Weapon Systems** submittal form:

- Joint Weld Procedure(JWP); selected IAW WS19143 Procedures 1-10
- Weld Procedure Specification (WPS); driven from the selected WS19143 Procedures 1-10
- Welder Performance Qualification(s); ONLY with personnel intended to perform the welding

*Please Note: Per WS19143, a Procedure Qualification Record **MAY NOT** be required*

Please contact Stephanie Biltz (Stephanie.Biltz@baesystems.com) with any questions and/or concerns you may have.
