

CMS Approved CARC Painter List Downsize

Supplier Quality Notification

To our Valued Suppliers:

As part of our ongoing effort to optimize the Approved CARC Painter List, we are conducting a second evaluation to further refine the list and minimize disruptions to our supply base.

Following our previous communication and the subsequent first round of downsizes, we are now seeking updated information from suppliers who utilize the Approved CARC Paint List for CMS product lines.

To support this effort, please submit an email with the following information by **10/10/25**:

1. The name of the Approved CARC Painter(s) you currently utilize.
2. The percentage of work you provide to these painters.

This information will enable us to make informed decisions and minimize the impact on our supply base as we proceed with the second round of evaluations.

Please submit your responses to: sqauditreq.pands@baesystems.us

The Approved CARC Painter List is located on the purchasing website.
