

A message from Inc. Supply Chain

BAE Systems, Inc. Supply Chain Cybersecurity Enhancement Initiative

At BAE Systems, Inc., we recognize the importance of safeguarding digital systems and data in the face of evolving cyber threats. As such, we are committed to supporting you on your journey to be compliant to **Cybersecurity Maturity Model Certification (CMMC) 2.0**.

We are developing a comprehensive program that includes integrating CMMC 2.0 readiness data into our supplier onboarding process, as well as partnering with leading cybersecurity firms to offer discounted services and providing regular education and training opportunities to you.

We encourage you to explore these resources and consider how they can support your organization's CMMC 2.0 compliance efforts. Please review the attached Supplier CMMC 2.0 document for additional information.

Stay tuned for updates on our latest resources and initiatives, including webinars, industry updates, and collaborative initiatives, as these will help keep you informed about the latest developments in CMMC 2.0 compliance.

Thank you for your partnership.

Bobby Fisher
Supply Chain Cybersecurity Risk Manager
BAE Systems, Inc.
