Modular Lightweight Load Carrying Equipment (MOLLE)

Modular Lightweight Load Carrying Equipment, or MOLLE, has been designed to enhance the agility and survivability of the modern day warrior. Our system, which is worn rather than carried, provides complete modularity, improving mission efficiency without compromising mobility or readiness. The newly designed Tactical Assault Panel (TAP) allows the Soldier to drop their carrying gear while still maintaining the quick-release mechanism of the tactical vest. The MOLLE system is also fully adjustable to be carried while wearing body armor. We offer a variety of MOLLE-compatible pockets, pouches, subsystems, and accessories to help you fulfill your mission requirements.
The basic MOLLE system comes set up in the Core Rifleman configuration with the following items:
- 1 Large Assault Pack
- 1 Tactical Assault Panel (TAP)
- 1 Waist Pack
- 1 Bandoleer Pouch 6 Magazine
- 1 Hydration System
- 3 M-4/M-15 Double Magazine Pouches
- 2 Canteen/General Purpose Pouches
- 1 qt (0.9 L)
- 2 Hand Grenade Pouches
- 1 M-4 Triple Magazine Pouch
- 1 E-Tool Carrier
- 1 Flash Bang Grenade Pouch

Weight: 8.5 lb (3.85 kg)
