The SMC 2000 folds forward to allow for ease in storage and maneuverability

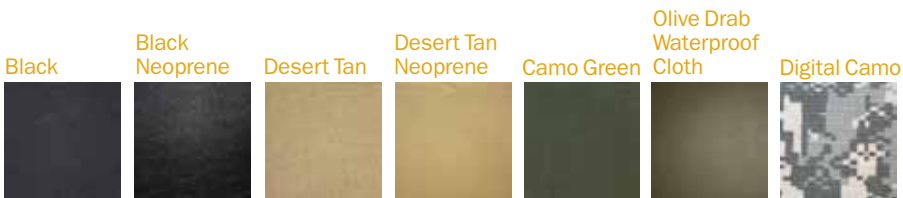

PROTECTING OCCUPANTS THROUGH LIFE-SAVING TECHNOLOGY

BAE Systems' Survivor Seating Series™ introduces the Survivor Modular Crew Seat (SMC) 2000. This belts-to-cab seat features the most advanced safety technology, along with the most comfort for passengers. Integrated with energy-absorbing, mine-blast technology, the SMC 2000 protects the occupant against the most vicious of impacts.

The Survivor Seating Series™ masters not only safety, but also comfort for the user. With a reclining seat back, integrated head rest, contoured seat cushion and optional adjustable arm rests, the SMC 2000 maximizes comfort for long-term missions. The seat also folds forward to allow for ease in storage and maneuverability. The SMC 2000 is available with a three-, four- or five-point restraint with a single-point rotary release buckle for emergency egress.

BAE Systems provides support at all stages of integration- from assisting with interface to testing and any other requirement as necessary. Built for strength, comfort and survivability, the SMC 2000 is the ultimate choice for any vehicle application.

Seat colors and patterns available:

Through efforts like the SMC 2000, BAE Systems is dedicated to providing distinctive solutions that maximize operational effectiveness through the Science of Survivability.
