

Survivor Post Mount Seat 1000

SPM 1000

Survivor Seating Series™

Saving lives through advanced safety technology

BAE SYSTEMS

SAFETY AND PERFORMANCE

MAXIMIZE SPACE AND SURVIVABILITY

The BAE Systems' Survivor Seating Series™ presents the Survivor Post Mount Seat (SPM) 1000. Outfitted with top safety features, the SPM 1000 mine blast seat is a durable, modular and sensible solution for any vehicle.

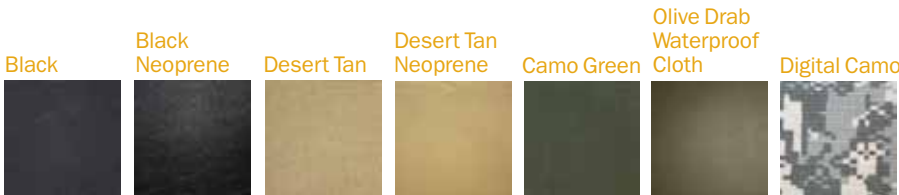

The SPM 1000 mine blast seat is a production-fielded solution that provides a durable and modular configuration for any post-mounted vehicle application. The seat is equipped with re-settable, energy-absorbing technology and a three-point SCHROTH® restraint to guard against the greatest of threats. Built for both safety and comfort, the seat is wall-mounted, highly configurable and is rigorously tested for use in the harshest of environments.

The seat maximizes space claim by folding forward, backward and against the vehicle wall to aid in ingress, egress and accessibility to all vehicle areas. The seat also features a fore/aft adjustment, removable seat cushions and waterproof fabric.

Maximize space by folding forward, backward and against vehicle wall

Seat colors and patterns available:

Through efforts like the SPM 1000, BAE Systems is dedicated to providing distinctive solutions that maximize operational effectiveness through the Science of Survivability.

FEATURES

- Waterproof, submersible cushions
- Right or left hand mounting configurations available
- Tested for harsh environments
- Modular design to increase freedom of movement
- Meets Federal Motor Vehicle Safety Standard-207/210
- Meets flammability requirements of FMVS302
