</tr>
</tbody>
</table>

### Disability

Many people do not consider themselves to be disabled, but under the Disability Discrimination Act you can consider yourself disabled if you have a physical or mental impairment or long term health condition, and the effects are expected to last, or have lasted for a year or longer, and have a substantial effect on your ability to carry out day to day activities; or your day to day activities would be limited without medication, treatment or adjustments (for example the use of inhalers, physiotherapy, a hearing or visual aid or insulin).

Taking this into account, do you consider yourself to be a disabled person?

- [ ] Yes
- [ ] No
